

## Heart Songs 2005

### Touching Heaven, Changing Earth

This year's song selections include inspirational music (songs 1 to 10) as well as various selections of techno, trance, and hypnotic music (songs 11 to 19). ♦ The inspirational songs are a few of my favorites. I particularly like the song *Legacy* which speaks about the meaning and purpose of life. I like the message of the song *Touching Heaven, Changing Earth*. So, I selected it as the title for this CD. It was recorded live in Australia. ♦ The energy and rhythm of techno, trance, and hypnotic music has inspired me during my workouts and at times when I needed an extra boost. ♦ I hope 2005 has been good for you and I look forward to sharing the coming year with you.

Regards, Gregory
